MISSION STATEMENT

As members of the Association, all residents share a common interest in:

- Maintaining the appearance and general aesthetics of the property
- Living in harmony with respect for all residents of our community
- Maintaining full homeowner property values

To further that awareness, the enclosed rules will provide a framework enabling the Board and staff to operate the property in an efficient manner. It is the goal of the Association to provide a fair and equitable atmosphere for all residents.

Living in a shared-interest community is a cooperative venture in which the rights of one owner may have an impact on another, therefore making it necessary to have various rules, standards, and safeguards. Consideration for your fellow neighbors and the community as a whole are essential components of making Whispering Lake an enjoyable place to live.

A Rules and Regulations Committee has been established, consisting of one Board member and several volunteer residents, to assist with this task. The Board position will rotate each year. The committee will monitor ongoing townhome issues and confer with the board on a timely basis.

RESIDENT'S CODE OF CONDUCT

Resident's shall refrain from the use of profanity, taunting, stalking, repeated excessive phone calls and e-mails, disruptive behavior, abusive letter writing and violence.

Harassment:

Is defined as words, gestures, actions, which tend to annoy, alarm, or abuse another person.

Policy Statement:

Any resident or guest shall not verbally abuse whether by phone, e-mail, or any other form of communication, the property manager, board members, vendors, staff, and all persons in the community.

GENERAL PRINCIPLES

IN CONJUNCTION WITH THE RULES AND REGULATIONS SET FORTH BY THE DECLARATION FOR THE TOWNHOME CONDOMINIUM ASSOCIATION AND UMBRELLA ASSOCIATION THE FOLLOWING RULES HAVE BEEN ESTABLISHED BY THE BOARD OF DIRECTORS.

To clarify the boundaries of ownership, you have purchased a condominium, which includes the air space between the walls and ceilings of the dwelling unit, including the basement and attic. The exterior components of the dwelling unit such as the siding and roofing are owned and maintained by the Townhome Condominium Association. All other common areas surrounding the structures including but not limited to the Clubhouse, lawns, driveways, walkways, roads and open areas are controlled and are maintained by the Umbrella Association.

To provide for the orderly and proper administration and maintenance of the Common Area, and for the architectural control of the dwelling units, the Umbrella Association Board shall have the responsibility for administering and maintaining the Common Area and for providing certain services to each Residential Association and their members.

I. EXTERIOR ALTERATIONS

1. No alterations, additions or improvements shall be made to the Common Area without prior approval of the Umbrella Association Board.
2. Excluding garage door keypads, NOTHING else can be permanently affixed with nail, bolts, screws, etc. to the exterior of the unit. This includes but is not limited to plant hangers or hooks, Tiki torches, window boxes and bug lights.
3. Maintenance, repair and replacement of the sliding doors and windows are the responsibility of the unit owner. Replacement must be identical to the original product.
4. All repairs and replacements are to be of the highest quality and be done in a timely manner. These repairs shall be similar to the character of the construction that existed prior to the occasion that necessitated the repairs.
5. Nothing may be done in any unit which may impair the structural integrity of the building or which may change the appearance of the building or violate the existing building codes.
6. No graffiti or defacing of property or buildings with temporary or permanent media including but not limited to markers, crayons and paint.
7. The use of chalk on common area drives, walks or streets must be cleaned off at the end of the day.

A. SATELLITE DISHES

1. If a dish has to be installed on a common element structure in order to achieve a signal, a written plan is to be submitted prior to installation and approved by the Townhome Board that will specify the actual location of the dish. A non-refundable damage deposit of \$150.00 will be required before installation. Once installed, it will remain when the unit is sold, so long as all successor owner(s) execute the appropriate Hold Harmless Agreement and acknowledge responsibility of the satellite dish.
2. The damage waiver of \$150.00 will not be required if the satellite dish of 20" or less in diameter can be installed on the deck. All wires are to be secured and any holes made during the course of wiring are to be weatherproofed.
3. The Association has installed a master satellite system from Dish Network. Therefore no new satellite dishes will be permitted on any common element areas not within the owner's exclusive use and control except to the extent that the desired programming is not offered by Dish Network. In the event of such an exception, the following rules shall apply:
 - (a). Any owner interested in installing a satellite dish one meter or less in diameter should notify the Board and confirm proper installation within seven (7) days from the date of installation. Satellite dishes greater than one (1) meter in diameter are prohibited. In order to protect the health, safety and welfare of the residents and their property the Board reserves the right to inspect the installation and maintenance of the satellite dish.
 - (b). Satellite dishes may only be installed on portions of property within the owner's exclusive use or control. The Board is requiring satellite dishes to be installed on the patio only. Any deviations must be approved by the Board of Directors prior to the installation of the satellite dish.

(c). No more than one (1) antenna of each provider may be installed.

(d). To protect the health, safety and welfare of the residents, all satellite dishes should be professionally installed. If the owner uses a professional installer, the unit owner must provide proof that the contractor is insured and licensed. All wires must be encased in molding which matches the color of the building. The use of any of Dish Network's property to establish a connection is prohibited.

(e). Once installed, the owner will be responsible for the maintenance of the dish. If additional cost is required to maintain the portion of property on which the dish is installed, the Board may assess this cost back to the unit owner. If it is necessary for the Association to remove the satellite dish to perform maintenance, the owner will be advised accordingly.

(f). The unit owner shall at all times keep the satellite dish in good repair. Failure to comply after five (5) days notice from the Board may result in the removal of the dish.

(g). Owners shall be responsible to fund the cost of any maintenance, repair or replacement to the property resulting from installation or de-installation of the satellite dish. In addition, the owner must restore the property to its original condition upon removal of the dish.

(h). The Owner hereby indemnifies and holds harmless the Board of Managers of the Association, its agents and members from any and all claims, controversies or causes of action resulting from the installation or use of this satellite dish, including the payment of any and all costs of litigation and attorneys' fees resulting therefrom. Owner agrees to be responsible for any damage to the property or any injury to any individual as a result of the installation of the dish. Upon installation of the dish the owner must execute the attached Hold Harmless Agreement.

(i). Upon transference of the ownership or occupancy of the unit, the Owner shall inform the successor in title, including any purchaser by Articles of Agreement for Warranty Deed, or tenant, of the existence of these Rules and Regulations and the obligations set forth herein. All obligations herein shall pass to any successor in interest. If the transferee is unwilling to assume the responsibilities set forth herein, and execute a new hold harmless agreement, the dish must be removed prior to conveyance at owner's expense.

(j). All satellite dishes shall be constructed in strict compliance with these Rules and Regulations. Any deviation from these Rules and Regulations without the written consent of the Board of Directors may result in the dismantling and removal of the satellite dish by the Association without notice. All costs of removal and restoration shall be borne by Owner. The Association reserves the right to levy a continuing and daily fine for each and every day an unauthorized satellite dish shall remain on the premises after the Owner has been notified to remove it, or advised to re-install the dish in conformance with the Rules and Regulations.

PRIVATE SATELLITE DISH and ANTENNA AGREEMENT

This Agreement is entered into this _____ day of _____, 2_____, by and between _____ ("Owner") and the Whispering Lake Townhome Condominium Association, an Illinois not for profit corporation ("Association").

The following recitals of fact are a material part of this Agreement:

1. The Owner resides at _____, Illinois, and is the owner of the property within the Association commonly known as Whispering Lake Townhome Condominium.
2. Pursuant to Section I-A of the Rules and Regulations and Article 3 of the Declaration for the Association ("Declaration"), no Owner may install a satellite dish or antenna ("collectively referred to herein as "Satellite Dish") on the property without the written approval of the Association's Board of Directors.
3. Section 207 of the Telecommunications Act of 1996 titled Restrictions on Over the Air Reception Devices ("FCC Regulations") prohibits the Board members from restricting an Owner from placing a satellite dish that is one (1) meter or less in diameter on portions of the property in which the owner has a direct or indirect ownership interest and where the owner has exclusive use or control.
4. FCC Regulations do permit the Board the right to adopt rules governing the placement, screening, color, etc. of these dishes, provided these rules do not (a) substantially increase the cost of installation, maintenance or use of the dish; (b) unreasonably delay the installation of the dish and (c) precludes reception of an acceptable quality signal.
5. The Owner desires to install a satellite dish on the property one (1) meter or less in diameter, and to comply with all other requirements of the Declaration and Rules and Regulations adopted by the Association's Board of Directors.

NOW, THEREFORE, in consideration of the mutual covenants and obligations set forth herein and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, it hereby is agreed as follows:

1. The Owner agrees to submit to the Board of Directors a completed Satellite Dish Installation Application (a copy attached hereto and made a part hereof as Exhibit A).
2. All satellite dishes shall be constructed in strict compliance with the approved rules and regulations. Any deviation from the approved rules and regulations without the written consent of the Board of Directors may result in the dismantling and removal of the satellite dish by the Association without notice. All costs of removal and restoration shall be borne by Owner. The Association reserves the right to levy a continuing and daily fine for each and every day an unauthorized satellite dish shall remain on the premises after the Owner has been notified to remove it, or advised to re-install the dish in conformance with the Rules and Regulations. The fine shall be set by the Board of Directors in accordance with approved guidelines for fines.
3. The Owner hereby indemnifies and holds harmless the Board of Directors, the Association, its agents and members from any and all claims, controversies or causes of action resulting from the installation or use of this satellite dish, including the payment of any and all costs of litigation and attorneys' fees resulting there from. Owner agrees to be responsible for any damage to the property or any injury to any individual as a result of the installation of the dish.
4. Upon transference of the ownership or occupancy of the unit, the Owner shall inform the successor in title, including any purchaser by Articles of Agreement for Warranty Deed, or tenant, of the existence of this Agreement and the obligations set forth herein. All obligations herein shall pass to any successor in interest, or the satellite dish must be removed by the owner and the property must be restored to its original condition at the Owner's sole expense.
5. Time is of the essence of this Agreement.
6. This Agreement shall be construed in accordance with the laws of the State of Illinois.

IN WITNESS WHEREOF, the parties have signed this document on the date set forth above.
